RAZLOZI DOLASKA NA LJETNU ŠKOLU

I was motivated by my interest in learning more about Europe as a whole. Both through learning about the history of European governance and through engaging with the Croatian culture.

The ability to study abroad and learn more about Croatian culture.

Dr. Balaban's enthusiasm during her presentation about the program. Additionally, the benefit of taking two core Econ courses in 6 weeks was important in my decision making, since I want to graduate a semester early.

I was eager to travel abroad through UNC, and when I found this program I was so excited at the opportunity to further develop my education in economics while experiencing Croatia, a country that had been under the radar to me for many years. I had a strong connection with Dr. Balaban, and I knew that any program she had put time into planning would certainly be worth my while.

I wanted to go to a country that is not typical of an American student and Croatia was perfect for that.

I chose this program because it would allow me to finish my Economics major while studying abroad in an amazing place.

POHVALE	POTREBA ZA POBOLJŠANJEM
Quantity and quality content	Organization of information
Allowed space for discussion and answered all questions	More visual aids such as graphs and charts
Interesting class about the EU, great professor	More time should spent on EU impact in Croatia
Entusiastic professors	Cohesivness of PPT slide material
Wonderful city	Additional resources for tests needed
Very accomodating with ARS	Class structure (two midterms felt like too much given the short amount of time)
Beautiful University	Class instruction/topic matter (very little focus on economics; more focus on history)
Acomodating during office hours	better powerpoint presentations that are more coherent.
Accommodation for students and faculty	could be a bit more ebgaging in class.
Grading criteria	Schedule
Enthusiasm from professors and staff	
prof. Derado is very accomodating.	
Exams were fair.	
Croatia is absolutely amazing.
