Course content broken down in detail by weekly class schedule (syllabus)	Lectures		Exercises/ Seminars				
	Topic	H o u r s	Topic	H o u r s			
	Introductory lecture	2	Introductory exercises	2			
	Preferred stocks and lease financing	2	Hybrid finance – Valuation of preferred stocks	2			
	Convertibles and warrants	2	Convertibles and warrants	2			
	Estimation of cash flows and the required rate of return of an investment (I)	2	Financial lease – Calculation of lease annuity and repayment plan	2			
	Estimation of cash flows and the required rate of return of an investment (II)	2	Operating lease – Calculation of lease annuity and repayment plan	2			
	Enterprise value	2	Estimation of cash flows and the required rate of return of an investment (I)	2			
	Capital structure theories	2	Estimation of cash flows and the required rate of return of an investment (II)	2			
	Dividend theories and policy	2	Static methods of enterprise valuation - Examples	2			
	Financial analysis	2	Dynamic methods of enterprise valuation - Example	2			

	Financial planning	2	Capital structure and debt management - Examples	2
	International financial management	2	Examples of EBIT-EPS analysis in debt management	2
	Project finance	2	Problems and calculations	2
	Special (selected) topic	2	Business finance topic – discussion and practical example	2
Format of instruction	<div> <div> x lectures <input type="checkbox"/> seminars and workshops x exercises <input type="checkbox"/> <i>on line</i> in entirety x partial e-learning <input type="checkbox"/> field work X Guest lecture </div> <div> x independent assignments <input type="checkbox"/> multimedia <input type="checkbox"/> laboratory <input type="checkbox"/> work with mentor </div> </div>			
Student responsibilities	The condition for attaining a signature is 50% of lecture and exercise attendance (part-time students' obligation is to fulfill half of the conditions valid for full-time students).			
Screening student work <i>(name the proportion of ECTS credits for each activity so that the total number of ECTS credits is equal to the ECTS value of the course)</i>	Class attendance	1	Research	Practical training
	Experimental work		Report	
	Essay		Seminar essay	Self-evaluation tests
	Tests	4	Oral exam	(Other)
	Written exam	4	Project	(Other)
Grading and evaluating student work in class and at the final exam	<p>During the semester, two written mid-term exams will be organized. Attending the first mid-term exam is optional. Only students who pass the first mid-term exam are allowed to access the second mid-term exam. Students who do not pass both mid-term exams must take the final written exam. Both mid-term exams together/written final exam carry 100% of the total grade and consist of theoretical questions and numerical tasks. The theoretical questions contribute to the overall points sum with 60% and numerical tasks with 40%. Alternatively, students can achieve grade through a final written exam during the exam period.</p> <p>To pass the exam, student has to achieve a minimum of 50% of total number of points in both mid-term exams individually (provided the minimum of 50% on theoretical questions and a minimum of 50% on numerical tasks). Alternatively, to pass the exam student has to achieve 50% of the total points on the final written exam (provided minimum of 50% on theoretical questions and a minimum of 50% on numerical tasks is achieved).</p> <p>Score thresholds and corresponding grades for written exams are: 0-49 points = insufficient (1) 50-65 points = sufficient (2) 66-75 points = good (3) 76-85 points = very good (4) and 86-100 points = excellent (5).</p> <p>A student who achieves a positive grade from the first and second mid-term exam, do not need to take the final written exam. If the student does not pass the written mid-term exams, he/she is obliged to take the final exam.</p>
