Grading and evaluating student work in class and at the final exam	During the semester students will write two tests. Those students who pass successfully both tests (pass mark is set at 50%), have completed the module. Each test carries 40 marks. Practical assignment is related to a particular case analysis. Those students who opt for this assignment and complete it successfully, will achieve higher module mark. Students have to demonstrate an in depth analysis of the case and adequate presentation skills (presentations are held during tutorials). Marking criteria are related to the conducted analysis, the depth of the literature, conclusions and insights and the quality of the presentation itself. Maximum 10 points can be achieved. Those students who achieve from 8 to 10 points are considered to complete the assignment successfully and are awarded with the higher final module mark. Students have to achieve at least a pass mark from both tests in order to be awarded with the higher module mark.					

	1* those students who do not pass their tests, will sit on a written or oral exam					
	1* those students who do not pass their tests, will sit on a written or oral exam. Grade range for each test: 0-19 fail (1) 20-24 pass (2) 25-30 good (3) 31-35 very good (4) 36-40 excellent (5)

Quality assurance methods that ensure the acquisition of exit competences	Registering students' attendance and success in carrying out of their duties (lecturer). Monitoring lectures and practice sessions (Vice Dean for Education). Students' Performance analysis in each course (Vice Dean for Education). Student questionnaire on the quality of lecturers and lessons for each course (University of Split, Quality Assurance Centre) Examination is used as an instrument to evaluate individual course outcomes by the course lecturer. The content of exam is reassessed periodically in order to assure compliance with the course outcomes.
